## 2014 WATER CARE Dealer Resource Guide

## More Quality!

More of the highest quality products delivering consistent performance and reliability. Whether its sanitizers, balancers, shocks or algaecides, ClearView<sup>™</sup> quality helps you do your job better.

## **More Innovations!**

ClearView<sup>™</sup> continues to deliver new solution based products and formulations to meet industry demands. New this year are concentrated brighteners, single application shocks and a unique formulation of phosphate remover: Phos-Boss and Phos-Boss MAX. Concentrated chemicals enable users to deliver the same benefits but carry less, saving both time and money.

## **More Savings!**

By bringing it all together, quality, innovations and comparative prices, you can improve your bottom line and keep competitive. It's not only what you pay, but what you get for it.

## HELPING YOU GET MORE OUT OF THE CHEMICALS YOU PUT IN!

If you're not seeing our products in your store, contact your nearest Imperial representative or call us at 800.420.3255.

## The **BASOCs**

The starting point for good water quality is good testing habits. Water should be checked one to two times per week for available sanitizer level and proper pH readings. A water sample should be brought to your professional dealer for full analysis once per month or twice per fill cycle with spas. The first sample should be taken 24 hours after opening the pool or filling the spa, and the last sample taken 48 hours before closing the pool for the season. Of course anytime you suspect a problem, a water sample should also be checked.

The critical first step in maintaining a clear, safe, enjoyable body of water is overall balance.

Alkalinity	Calcium Hardness	Chlorine Stabilizer	Foundation (borate)
is balanced three	is also balanced	is balanced once per	is balanced once per
or more times per	three or more times	season in most pools	season and enhances

	thus protecting all	use three to four times	water balance is more
	surfaces, structures,	more chlorine than a	controllable, and algae
	and equipment.	properly balanced pool.	growth is diminished.

Maintaining the proper pH range will make the water environment more user friendly, pH of human tissue is 7.5 and the recommended range for pools and spas is 7.2 to 7.8. Test twice per week and adjust as needed.

- pH Increaser is the most commonly used adjustment.
- pH Decreaser is typically used at the time of spring balancing or
- with pools equipped with chlorine generation devices (Salt Systems).

Water requires a continuous supply of Sanitizer to kill bacteria and algae before it has a chance to get established in the pool or spa. In traditional chlorine applications, sanitizer should be introduced through the use of an automatic chlorinator for consistent, effective disbursement throughout the body of water.

Oxidizing has several common names including "shocking" and "super chlorinating". Oxidizing removes the materials that were killed by the sanitizer. Without oxidizing, contaminants build up and lead to water that is difficult to control and is of poor quality. Oxidizing is chemically cleaning the water once per week.

Weekly use of products to control minerals and prevent algae will reduce the work load on Sanitizers and **Oxidizers.** Proper weekly additions keep pool and spa water sparkling clear, easy to maintain, and safe and enjoyable to use. Pools using algaecides weekly will exhibit better water quality and less product consumption than those not preventing algae formation.

These groups of products are specially designed for use in the pools and spas. Each year many thousands of warranty claims are denied because of the use of non-pool products to clean surfaces and equipment. Preserve your investment by only using products designed for swimming pools and spas.

Clarifiers are products designed to help increase filter efficiency and add sparkle to the water by coagulating small particles into larger ones so they can be filtered out.

**Cleaners** are specially formulated products to clean and maintain pool surfaces, filters and equipment. These products are non-foaming, and will not adversely impact water quality and balance.

Problem Solvers are a specialized group of products to treat rare circumstances that may arise in pool and spa water from time to time. Products included kill certain types of stubborn algae, remove excess chlorine, eliminate phosphates that algae feed on, and a host of other important tasks.

#### BASOC ELEMENTS

## YOUR BASOC<sup>™</sup> BENEFITS

BASOC ELEMENTS' provides you with valuable business tools to be competitive and successful!

#### **High Quality, USA Produced Brands** Memorable brand identifiers.

**Exclusive Territories by Chemical Brand** Featuring 3 chemical products to differentiate your business.

**Easy-to-Use Color-Coded Format** Color-coordinated brochure format and products. Consumer-oriented packaging.

#### **Earn Power Points Rewards**

Purchases qualify for Power Points Early Buy Program. Ask how to qualify and register for Power Points Rewards!

BASOC

## **VALUE ADDED SOLUTIONS**

#### **Design Services and Programs**

FREE retail layout and design services. FREE POP Marketing Kit - BASOC, item #25642. Attractive Shelving and Display Programs available. Discounted BASOC Wearables Program.

#### **Educational & Certification Opportunities**

Annual seminars, training, and CPO<sup>®</sup> Certified program offerings.

#### **Multi-Level Support**

Local Distribution Centers Regional Sales Directors Imperial Distribution Programs Department Pool Chemical, Water Lab & All Manufacturers

#### **Online Resources**

24/7 Access to online resources, which offers you a *huge* collection of data and details! VISIT: **www.basocelements.com** (for dealers and consumers) **www.imperialpools.b2b.com** (for dealers only)

# Jump On In!

## Buy Products - Earn Points - Get Rewards

Buy:	Put power behind your purchases with additional profit opportunities!
Earn:	Rack up Reward points on an abundance of Oreq items.
Get:	Spend Rebate Vouchers on product, marketing / merchandising items & co-op

### Double Points!

Adding value where it matters! Earn DOUBLE points on specified products and boost your points balance.

### Welcome New Members!

Register and receive a start-up Welcome Kit full of fun stuff to help kick off your Rewards Member status!

### Thank You Current Rewards Members!

You'll receive a marketing package each year to help kick off your season and keep merchandising materials fresh.

These marketing packages will include items (selected at Oreq's discretion) based on your business type and individual needs.

## How It Works:

Points are earned on eligible purchases within the program period. Your purchases earn points and potentially double points which then qualify you for Product and Co-Op Vouchers as follows:

Points	<b>Product Voucher</b>		Co-Op Voucher	Total Rewards Value
15,000	\$200.00	PLUS	\$200.00	\$400.00
25,000	\$350.00	PLUS	\$400.00	\$750.00
35,000	\$450.00	PLUS	\$700.00	\$1,150.00
45,000	\$600.00	PLUS	\$1,200.00	\$1,800.00

Product Vouchers can be used as cash toward future product purchases and other items such as jackets, beach towels and more through the Oreq website. Co-Op dollars can be used for advertising reimbursements.

Contact your local Imperial Branch for more details!

Note: Program is subject to change without notice.

## New Members Welcome Kit!

OIN

Register with Oreq as a ClearView<sup>™</sup> Rewards Member and receive a free Welcome Kit full of fun stuff to help kick off your Rewards Member status! You can expect such items as posters, banners, counter top mats, mouse pads, floor displays, hats, window clings and much more. It's our way of helping to market your ClearView commitment.

Welcome Kit marketing packages will include items (selected at Oreq's discretion) based on your business type and individual needs.

& Maintenance of Salt Water Pools

BEWARE: LOW-PRICED COMMODITY POOL SALTS ARE EATING AWAY YOUR PROFITS.

#### Survive and thrive with the Pristiva' System for salt water pools.

If you're only offering low-priced commodity pool salts, your profits and your business are at risk. Commodity pool salts are significantly lowering sales and profits you used to see from traditional chlorine chemicals. The solution is Pristiva. With its specially formulated ingredients and breakthrough technology, Pristiva provides unrivaled performance and the guaranteed results your customers want — along with the higher profitability you need for your business to survive and thrive. Salt water pools are a growing trend and are here to stay. Get your plan of attack started at SaltwaterPoolSurvivalGuide.com
